

For Immediate Release

**DCI Solution Announces New Partnership with AdjustRite®**

January 1, 2020 – Rapid City, SD

DCI Solution is pleased to announce a new strategic partnership with AdjustRite and their AdjustRite Plus service for truck and recreational vehicle estimating and total loss valuations.

“This will simplify the total loss claims process tremendously for our clients,” states David DiMaria Chief Experience Officer of DCI Solution. “With the simple click of a button, clients will be able to request a total loss valuation from DCI Solution directly from the AdjustRite Plus portal, thus eliminating the need for the adjuster to re-enter information and reducing their time and efforts spent on total loss claims.”

Clients will still work directly with DCI Solution on any questions, follow-up, billing, etc. but this new feature will be a huge time saver. You can learn more about this new partnership by visiting our [website](#) discussing this partnership.

About DCI Solution

DCI Solution is a leading provider of specialty valuations for specialty vehicles and other assets to the insurance and related industries. These services include Total Loss Valuations, Diminished Value Appraisals, Right of Appraisal Services, and other arbitration and supplemental services.

About AdjustRite®

AdjustRite® is the premiere repair estimating software for trucks and now also for recreational vehicles. The AdjustRite® Plus program is the first and only full-service application that takes into consideration the overall commercial truck claim process. AdjustRite® is a division of PPG Industries.
