

JEFFREY CALUSINSKI

DISTINGUISHED ENGINEER, IBM

Jeff is an IBM Distinguished Engineer responsible for leading IBM's Financial Services Sector's use and adoption of Portal, Web2.0, Mobile and Collaboration technologies. In his role he works with IBM clients across the globe on delivering business value from the use of these tools. Additionally, Jeff works with IBM research, the IBM Academy, and other groups inside IBM to better understand how technology can be applied to solve customer business challenges and drive innovation.
