

ACD Integrates with DCI Solution for Heavy Equipment & Specialty Valuations

Rapid City, SD – September 28, 2015 – ACD, a leading claims technology, decision support, advisory and service network solution to the property and casualty insurance industry has announced integration with DCI Solution, a leading provider of heavy equipment & specialty vehicle valuations.

The new agreement with ACD and DCI Solution will add vehicle valuations for heavy equipment, specialty, motorcycles, recreational vehicles and marine losses to ACD's AutoLink™ claims workflow platform. ACD's integration utilizing DCI Solution's Valu-Rite System® will increase efficiency for adjusters and ensure accuracy when processing total loss claims involving this special sector of the market.

"Incorporating specialty vehicle valuations into AutoLink™ is one more step in our mission of unifying the links of the entire claims value chain. The heavy equipment valuation process is one that takes expertise and experience," stated Ernie Bray, CEO of ACD. "DCI Solution provides us with a quality solution and yet another fantastic addition to our growing list of partners who continue to help us build the most complete end-to-end claims processing solution," added Bray.

Darren DiMaria, Chief Client Officer of DCI Solution said, "We look forward to working with ACD and integrating our Valu-Rite System® for top tier heavy equipment & specialty valuation services into their AutoLink™ technology. Client-focused firms such as our organizations are able to provide insurers and their adjusters the detailed and accurate information they need to expedite total loss settlements," added DiMaria.

About ACD

In an age of connectivity, ACD links insurers with the best technology and service providers in the auto claims industry. Along with AutoLink™, PropertyLink™ and SubroLink™, ACD has redefined innovation and technology excellence through data-driven analytics, decision support, advisory, and audit services – all serving to connect the entire claims value chain. Our mission is to digitize and connect the claims industry by focusing on simplifying processes in a highly fragmented business sector.

The firm has processed over \$3 billion dollars in assessed damages, servicing over 225 insurers including 11 of the Top 25 national carriers.
