Millennium Broadway Hotel Times Square, New York

145 West 44th Street
New York New York 10036

Tel: (212) 768-4400

Do you handle personal injury cases? Have you been trying to determine what is reasonable and necessary for attendant care?

DAN THOMPSON
Registered Rehabilitation Professional
Registered Vocational Professional
Certified Life Care Planner

When Dan acquired C4-C5-C6 quadriplegia from an automobile accident in 1980 it changed his life forever. Dan was walked from the vehicle to the ambulance by the attendants; and unfortunately, protocols were not followed, so when Dan went into shock and thrashed about, he awoke in the hospital to find himself permanently "disabled. Over the last 12 years, Dan has worked on hundreds of cases that required Life Care Plans, Vocational Reports, Case Management Services, Rehabilitation Plans and Housing. This work has taken him across North America. He has helped individuals who have sustained a variety of injuries including burns, amputations, brain injuries, orthopaedic injuries, spinal cord injuries and congenital disabilities.

Dan will unleash the secrets of what is reasonable and necessary for attendant care for persons who sustained quadriplegia from spinal cord injuries.
