Dear College Graduate:

Congratulations on your graduation! As you embark on your career, we offer you this advice. You have made a great choice in the insurance industry, which offers you such a broad spectrum of areas to put your talent and energy to use. Our advice to you is to focus on learning as much as you can early in your career and explore the many opportunities to find the area which best fits with your current interest and strengths. Throughout your career, embrace the many turns in the road you will encounter and always look to expand your knowledge and seek out new solutions to the problems your company and the industry face.

You will have an opportunity to make a difference in your career and your community. Insurance is a purpose driven industry and you can make a positive impact on individuals, businesses, and communities around the world. A.M. Best has always played a constructive role in the insurance industry through the assessment of the financial strength of insurance companies and we are proud to be a part of such a positive industry.

This is an exciting time to be joining the insurance industry. The use of data analytics and the impact of emerging technology are driving huge changes. Insurance companies must continue to look to serve their customers in innovative and efficient ways. The industry itself is changing as an increasing amount of risk is being assumed through alternative capital market solutions rather than on the books of a typical insurance company. Insurance risk has reached Wall St.

Globally, insurance is hiring and you can find a rewarding career in our industry. As a Credit Rating Agency, A.M. Best has a unique perspective of the overall insurance industry. This perspective allows you to understand the overarching issues that are impacting all types of insurance companies and is much broader in scope than a role in an insurance company. While both perspectives are important for an insurance industry employee, the scope of experience that can be obtained at A.M. Best provides for a strong base to build any career in the insurance industry.

For more information about our company please contact us at (908) 439-2200.

We wish you the best and hope you will choose insurance as a career.

Sincerely,

Larry G. Mayewski
