

# Best's Insurance Reports®

P/C, US & Canada • L/H, US & Canada • L/NL, Non US

## Enhance your strategic planning and expand your research with AM Best's in-depth analysis of insurer performance, plus the latest financial data and company information.

- Expand your research with AM Best's evaluation of factors affecting insurers' financial health: balance sheet strength, holding company assessment, country risk profile, operating performance, business profile and enterprise risk management.
- Gain insight from financial metrics and qualitative factors considered when ratings are assigned.
- Inform your analysis with the latest financial data and company information.
- Determine whether a rating unit's capitalization is appropriate for its risk profile.
- Monitor insurers' creditworthiness and changes to their ratings.
- Benchmark companies against peers or industry composites.
- Understand corporate structures and the impact of holding companies on subsidiaries' financial strength with capital infusions or access to capital markets.
- Learn about surviving insurance companies after mergers or other corporate changes.

### Your Purchase Includes:

- Current and historical Best's Credit Ratings, for AM Best's independent opinion of insurers' financial strength and ability to meet ongoing policy and contract obligations.
- *Best's Credit Reports*, for in-depth analysis of rating units evaluated during AM Best's rating process. Current and historical reports are included.
- *Best's Financial Reports*, with up to five years of annual financial metrics and quarterly data for US companies, plus current company information such as officers and directors, corporate changes, M&A and more.
- A detailed overview of company performance, with key financial indicators, state licensing, news, corporate structure, data structure, rating history, Best's Capital Adequacy Ratio score history, and access to key reports.
- Multiple search options, including a dedicated search page to find credit and financial reports quickly.
- Export feature to download reports for single or multiple companies, in whole or by sections.
- Peer selection tool to find peers for any US insurer.
- Company ranking tool to find US companies based on their ranking for selected key financial fields.
- Officers and directors information for prospecting and marketing.
- Corporate changes, including M&A.
- Alert service for changes to ratings, reports, news and other company information.
- Daily and monthly news, with the option to add all AM Best news and research.
