

**BestESP allows you to prepare, print and file quarterly and annual statements and risk-based capital (RBC) reports that comply with all NAIC and New York state regulatory requirements.**

- Available filing statements/supplements include the following:
  - Property/Casualty (including Combined Companies)
  - Life, Accident & Health/Fraternal
  - Health
  - Title
  - New York Supplement (for Property/Casualty and Health)
  - Risk-Based Capital (for Property/Casualty; Life, Accident & Health; and Health)
- Migrate data into your current-year configuration with options that incorporate prior-year company information, supplemental interrogatory responses and page settings.
- Set up administration delegation rights to grant or restrict user or process access.
- Add external documents (PDF, JPG, DOCX, etc.) for Schedule Y, Actuarial Opinion, MD&A and similar pages.
- Incorporate Notes to Financial automatically in the filing PDF by tagging the respective schedules.
- Use “breakout lines” for APC filings to automatically create Schedule P summary pages and take advantage of a more robust RBC Schedule P import process.
- Reconcile your data by utilizing the AM Best process for all inter-page calculations.
- View extensive NAIC validation reporting to ensure your statement is complete and correct before submission.
- Present professional-looking output with our superior print format capabilities.
- View and print calculated IRIS test ratios in the annual P/C and L/H versions.
